

LEONARDO B.

\$62/h.

Senior Full-stack Web Developer

6

years of experience

SUMMARY

As a senior software engineer, Leonardo has accumulated over 7 years of experience in problem-solving and implementing best practices to ensure the quality of the codebase. Throughout his career, he has developed a strong expertise in identifying and resolving complex issues, as well as implementing standards and procedures to reduce errors and improve the overall performance of the software.

Leonardo is always eager to learn and keep up-to-date with the latest technologies and trends in the industry. He is confident in his ability to leverage my experience and expertise to drive innovation and create high-quality software that meets the needs of end-users.
